

VANDER-CLIPS

**STRONG • RELIABLE
SECURE**

**Introducing
Vander-Clips
from
VANCARE, Inc. –
The missing
link in your
ergonomic
lift program.**

Vander-Clips are the revolutionary safe and easy way of repositioning bedridden patients or residents!

- Can be used with any total or overhead lift to safely and easily reposition bedridden people.
- Securely holds any turning or repositioning sheet.
- Allows for remarkably efficient one- person operation.
- Reduces stress on your staff while improving the dignity and comfort of the patient/resident.
- Assists in positioning/placement of slings and slide sheets.
- Aids in repositioning people with bed sores or requiring other wound-care.

Another quality solution from VANCARE, Inc.!

Vander-Clips are manufactured in the USA by a company with over 15 years of experience in producing quality healthcare equipment. Vancare, Inc. specializes in patient lifting and transferring needs, offering a complete line of lift systems and accessories.
